Statement of Facts to Support
Petition Under 37 CFR §1.47(a)

Sir:

The undersigned hereby declares:

I, Dean E. Geibel, am a patent attorney with FCI USA, Inc with a mailing address at FCI USA, Inc, IP Department, 825 Old Trail Road, Etters, PA 17319.

Based upon information and belief, one of the inventors, Phillip Seminara, in the above-identified patent application refuses to sign the oath/declaration for the present application or cannot be found or reached after diligent effort. Therefore, application for patent in the above-identified patent application is being made on behalf of the nonsigning inventor by all the available joint inventor(s).

Relationship To The Inventor:

The undersigned has no relationship to the nonsigning inventor other than preparing and filing the patent application on his behalf.

Proof That The Inventor Cannot Be Found Or Reached After A Diligent Effort Or Refuses To Execute The Application Papers:

- On April 8, 2005 a letter was sent by the undersigned to the nonsigning inventor at his last known address. The letter and documents referred to in the letter were sent to the inventor via United Parcel Service (UPS) with a pre-paid return envelope. The documents included a copy of the application as filed including a copy of the specification, claims and drawings. No reply was received to that letter.
- On May 13, 2005 a reminder letter was sent by the undersigned to the nonsigning inventor at his last known address. The reminder letter comprised a copy of the April 8, 2005 letter marked "REMINDER" and the date written in by hand. A copy of that letter is attached in Exhibit A. The letter was sent to the inventor via United Parcel Service (UPS). No reply was received to the second letter. A review of the tracking details on the UPS web site indicates that the inventor has moved and UPS was attempting to contact him (Exhibit B).

Last Known Address Of Inventor:

Based upon information and belief, the last known address of the inventor is:

Phillip Seminara
903 Warren Avenue
Niles, Ohio 44446

Proof That The Filing Of The Application Is Necessary:

Based upon information and belief:

- During prosecution of the application changes were made to the claims which require correction of inventorship to add additional inventors.
- A Request under 37 C.F.R. §1.48(c) requires an declaration by the actual inventors as required by 37 C.F.R. §1.63 or as permitted by 37 C.F.R. §1.47. Thus, this petition is necessary to proceed with correction of the inventorship.
- The issue fee is due by May 31, 2005 and the petition to correct inventorship needs to be filed before the issue fee is paid.

Thus, the present petition is necessary to preserve the rights of the parties.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may

jeopardize the validity of the application or any patent issued thereon.

Responsibility for Loss or Damage

Unless a greater value is recorded in the declared value field as appropriate for the UPS shipping system used, the shipper agrees that the released value of each package covered by this receipt is no greater than \$100, which is a reasonable value under the circumstances surrounding the transportation. If additional protection is desired, a shipper may increase UPS's limit of liability by declaring a higher value and paying an additional charge. UPS does not accept for transportation and shipper's requesting service through the Internet are prohibited from shipping packages with a value of more than \$50,000. The maximum liability per package assumed by UPS shall not exceed \$50,000, regardless of value in excess of the maximum. Claims not made within nine months after delivery of the package (sixty days for international shipments), or in the case of failure to make delivery, nine months after a reasonable time for delivery has elapsed (sixty days for international shipments), shall be deemed waived. The entry of a C.O.D. amount is not a declaration of value for carriage purposes. All checks or other negotiable instruments tendered in payment of C.O.D. will be accepted by UPS at shipper's risk. UPS shall not be liable for any special, incidental, or consequential damages. All shipments are subject to the terms and conditions contained in the UPS Tariff and the UPS Terms and Conditions of Service, which can be found at www.ups.com.
